

Programming Problem Tracker

#	Question	C++	JavaScript	TypeScript	Java
1	Check if a number is positive/negative/zero				
2	Find maximum of two numbers				
3	Find maximum of three numbers				
4	Check if number is even or odd				
5	Check leap year				
6	Check if character is vowel/consonant				
7	Check if alphabet, digit, or special character				
8	Convert uppercase to lowercase and vice versa				
9	Check if triangle is valid (given sides)				
10	Calculate grade based on marks				
11	Check if profit or loss (given CP and SP)				
12	Check if person can vote (age $\geq$ 18)				
13	Check if number is divisible by 5 and 11				
14	Check if triangle is equilateral/isosceles/scalene				
15	Check if character is alphabet or not				
16	Calculate electricity bill with slabs				
17	Check if coordinates lie on x/y axis or quadrant				
18	Check if quadratic equation has real roots				
19	Check if number is 1, 2, or 3 digit				
20	Check if number ends with 5				
21	Compare two strings equality				
22	Check if temperature is below freezing				
23	Check if point lies inside/outside circle				
24	Determine type of angle (acute/obtuse/right)				
25	Check if date is valid (dd/mm/yyyy)				
26	Check if time is valid (hh:mm:ss)				
27	Simple calculator (+, -, *, /)				
28	Check if number is multiple of 3 but not 5				
29	Check if three points are collinear				

#	Question	C++	JavaScript	TypeScript	Java
30	Determine season from month number				
31	Find day of week using switch				
32	Calculate area based on shape choice				
33	ATM withdrawal validation (balance, limits)				
34	Calculate BMI and categorize				
35	Check triangle type by angles				
36	Calculate tax based on income slabs				
37	Check if number is positive even, positive odd, etc.				
38	Determine type of triangle (right, acute, obtuse)				
39	Library fine calculation (late return)				
40	Check if quadrilateral is square/rectangle/rhombus				
41	Calculate discount based on purchase amount				
42	Determine wind speed category				
43	Check if year is leap and century year				
44	Calculate insurance premium by age/health				
45	Check if number is palindrome using if-else only				
46	Determine if number is increasing sequence digits				
47	Student scholarship eligibility				
48	Check if time is AM/PM and convert				
49	Determine if number is special (sum of digits > product)				
50	Validate password strength				
51	Check if number is within range AND prime				
52	Validate triangle AND check type				
53	Check if number is Armstrong using conditions only				
54	Loan eligibility (salary, age, credit score)				
55	Check if point inside rectangle AND circle				
56	Validate email format basics (@and. present)				
57	Check if number is perfect square AND even				
58	Determine if number is power of two using logic				
59	Check if three numbers form Pythagorean triplet				
60	Validate IP address format (basic)				
61	Check if number is factorial number				

#	Question	C++	JavaScript	TypeScript	Java
62	Determine if angles can form triangle AND type				
63	Check if number is Fibonacci number using conditions				
64	Validate phone number format				
65	Check if number is duck number				
66	Determine if number is mysterious (multiple conditions)				
67	Check if date is palindrome (ddmmyyyy)				
68	Validate Sudoku row (no repeats 1-9)				
69	Check if number is ugly number (factors 2,3,5 only)				
70	Determine if number is happy number (logic approach)				
71	Print numbers 1 to N				
72	Print even numbers 1 to N				
73	Print odd numbers 1 to N				
74	Print multiplication table				
75	Calculate sum of first N natural numbers				
76	Calculate factorial				
77	Print Fibonacci series				
78	Count digits in number				
79	Calculate sum of digits				
80	Reverse a number				
81	Check palindrome number				
82	Find power of number				
83	Print all factors of number				
84	Check prime number				
85	Print prime numbers 1 to N				
86	Find GCD of two numbers				
87	Find LCM of two numbers				
88	Print ASCII values A-Z				
89	Print all armstrong numbers 1-1000				
90	Calculate sum of series $1+2+3+\dots+N$				
91	Calculate sum of series $1^2+2^2+3^2+\dots+N^2$				
92	Print pyramid patterns (5 types)				
93	Print diamond pattern				

#	Question	C++	JavaScript	TypeScript	Java
94	Print number patterns				
95	Print Floyd's triangle				
96	Print Pascal's triangle				
97	Convert binary to decimal				
98	Convert decimal to binary				
99	Check strong number				
100	Find perfect numbers in range				
101	Print numbers using while loop				
102	Find first and last digit of number				
103	Find product of digits				
104	Count frequency of digit in number				
105	Print digits in reverse (using while)				
106	Check palindrome using while				
107	Find Armstrong using while				
108	Calculate sum of even digits				
109	Calculate sum of odd digits				
110	Find factorial using while				
111	Reverse number using while				
112	Find power using while				
113	Check prime using while				
114	Find GCD using while (Euclidean)				
115	Print Fibonacci using while				
116	Binary to decimal using while				
117	Decimal to binary using while				
118	Check strong number using while				
119	Find LCM using while				
120	Find all divisors using while				
121	Menu-driven calculator (do-while)				
122	ATM simulation (do-while)				
123	Guess the number game				
124	Input until negative (do-while)				
125	Sum until zero entered				

#	Question	C++	JavaScript	TypeScript	Java
126	Find average until -1 entered				
127	Check if number is spy number				
128	Find automorphic numbers				
129	Check if number is magic number				
130	Find abundant numbers				
131	Print all prime factors				
132	Print prime numbers in range				
133	Print patterns with nested loops (10 variations)				
134	Print multiplication tables 1-10				
135	Find all pairs with given sum				
136	Find common factors of two numbers				
137	Print all combinations of two dice rolls				
138	Find co-prime numbers in range				
139	Print twin primes				
140	Print unique digit numbers				
141	Find perfect squares in range				
142	Print triangular numbers				
143	Find Pythagorean triplets in range				
144	Find factorial of all numbers 1 to N				
145	Print all palindrome numbers in range				
146	Find most frequent digit				
147	Check if number is twisted prime				
148	Find circular primes				
149	Print all permutations of digits (small)				
150	Find Kaprekar numbers				
151	Find second largest digit				
152	Find smallest digit in number				
153	Check if number is Disarium number				
154	Find Harshad numbers				
155	Check if number is pronic				
156	Find sunny numbers				
157	Find tech numbers				

#	Question	C++	JavaScript	TypeScript	Java
158	Find neon numbers				
159	Find evil/odious numbers				
160	Find automorphic numbers				
161	Find factorial sum of digits				
162	Check if number is Keith number				
163	Print all Smith numbers				
164	Find golden ratio approximation				
165	Calculate e^x approximation				
166	Calculate $\sin(x)$ approximation				
167	Calculate approximation				
168	Generate random numbers until condition				
169	Find longest sequence in Collatz conjecture				
170	Calculate digital root				
171	Find multiplicative persistence				
172	Check if number is palindrome in binary				
173	Find happy numbers in range				
174	Find narcissistic numbers				
175	Find abundant/perfect/deficient classification				
176	Find amicable numbers				
177	Check if number is powerful				
178	Find Ruth-Aaron numbers				
179	Find lucky numbers				
180	Find polydivisible numbers				
181	Find self-descriptive numbers				
182	Find vampire numbers				
183	Find cyclic numbers				
184	Find Friedman numbers				
185	Find equidigital numbers				
186	Find economical numbers				
187	Find extravagant numbers				
188	Find frugal numbers				
189	Find wasteful numbers				

#	Question	C++	JavaScript	TypeScript	Java
190	Find sublime numbers				
191	Find harmonic divisor numbers				
192	Find superperfect numbers				
193	Find untouchable numbers				
194	Find semiperfect numbers				
195	Find weird numbers				
196	Find aliquot sequence				
197	Find sociable numbers				
198	Find aspirant numbers				
199	Find transcendental numbers approximation				
200	Create your own number classification
